

Getting access to DATamaestro platform

On your PC/laptop open your browser (supported browser: Google Chrome) and navigate to <https://projects.mydatamaestro.com/> and log in to your account.

The login form features the DATamaestro logo at the top. Below it is a 'Connect with Google' button. An 'OR' separator follows. There are two input fields: 'Email address' and 'Password'. A blue 'Connect' button is positioned below the password field. A link for 'Can't access your account?' is located at the bottom left. An orange callout box points to the 'Email address' field with the text: 'Enter the **login** and **password** received by PEPITE's support team'.

The dashboard screenshot includes several callouts:

- User Guide:** A dashed box around the 'Users guide' link in the top navigation menu, with a callout stating: 'User Guide: to access to a DM user documentation'.
- Contact Support:** A callout pointing to the 'Contact Support' link in the top navigation menu, stating: 'You can e-mail PEPITE's Help Desk (support@pepitem.com) by clicking on **Contact Support**'.
- Feedback:** A callout pointing to the 'Feedback' link in the top navigation menu, stating: 'To send us your feedback, click on **Feedback**'.
- User Demo:** A callout pointing to the 'User Demo' dropdown menu, which contains links for 'Lake', 'Analytics', 'Dashboards', 'Change password', 'About', and 'Sign out'. A callout points to 'Change password' with the text: 'Change your **password**'.
- Store your Data:** A callout pointing to the 'Store your Data' button, stating: 'Click on **Store your Data** or **Lake** to access DM Lake. In the Lake, you can store, merge, and resample your time-series data'.
- Analyze your Data:** A callout pointing to the 'Analyze your Data' button, stating: 'Click on **Analyze your data** or **Analytics** to access DM Analytics. In this component, you can visualize, transform, analyze data and build analytics models.'.
- Present your Data:** A callout pointing to the 'Present your Data' button, stating: 'Click on **Present your data** or **Dashboards** to access DM Dashboards. Here you can present real-time data and output analytics models'.
